

RESOLUTION

WHEREAS, Chapter 373 of the Florida Statutes known as the Florida Resources Act of 1972 indentifies the St. Johns River Water Management District and delegates certain authority and responsibility to that District concerning water resources in the State of Florida, and

WHEREAS, a portion of Orange County is contained within the District and comes under the rules and regulations of said District, and

WHEREAS, the District has requested local governments to submit proposals for District assistance in investigating water resource problems of mutual interest to the District and the participating agencies, and

WHEREAS, Orange County maintains approximately 85 drain wells located within the St. Johns River Water Management District boundaries, and

WHEREAS, Orange County relies on many of these drain wells as the only outfall for entire drainage systems, and

WHEREAS, some of the drain wells have been in place since the early 1900's, and

WHEREAS, the District has received several thousand dollars in tax revenue from Orange County;

NOW, THEREFORE, BE IT RESOLVED that the Board of County Commissioners of Orange County request that the St. Johns River Water Management District include in its 1982-1983 budget, funds to perform borehole television logging of the drain wells in Orange County to ascertain their conditions and project their remaining operational life as outlined in the attached application.

BOARD OF ORANGE COUNTY COMMISSIONERS
