PREMISES

WHEREAS, the Orange County Commission (hereinafter "Commission"), is the governing body of Orange County government, and

WHEREAS, Orange County Public Utilities is a Division within Orange County government and is currently constructing the Northwest Water Reclamation Facility (hereinafter "Northwest Facility"), located between McCormick and Keene Roads in northwest Orange County, and

WHEREAS, the Northwest Facility site was designated by the Commission in March, 1985, and

WHEREAS, the Orlando/Orange County Expressway Authority (hereinafter "Authority"), is proposing a possible route of the Westerly Beltway extension through the Northwest Facility site via alternate route A-10/A-11.

NOW, THEREFORE, BE IT RESOLVED BY THE ORANGE COUNTY COMMISSION:

Section 1. The Authority has proposed certain potential roadway design options to cross the County's Northwest Facility to try to minimize impacting the County's ability to provide present and future treatment and effluent disposal.

Section 2. The Authority's proposed design options do not adequately address the impacts of Lake Marden as an effluent disposal system which can potentially adversely impact the County's master plan for providing central wastewater service to the northwest area of Orange County.

Section 3. The proposed Authority's design options are preliminary and there are no guarantees or warranties given

1 by the Authority which assure the County's continued use of
2 the site for planned wastewater treatment and disposal.

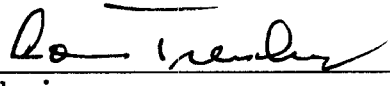

3 Section 4. It is also understood that alternative
4 routes are available around the Northwest site at a lower
5 capital cost.

6 Section 5. Therefore, the Commission opposes the
7 routing of the Expressway Authority's proposed route
8 A-10/A-11 through the Northwest Facility site and recommends
9 rerouting the Westerly Beltway extension via alternate routes
10 around the Northwest Facility site.

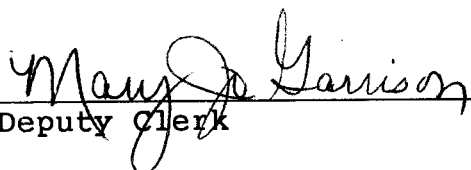

11 Section 6. Effective Date. This resolution shall
12 take effect immediately upon adoption.

13 ADOPTED THIS 9th DAY OF NOVEMBER, 1987.
