Subject: RE: Intersection Crash Statistics

Nancy,

Our database shows a total of 6 crashes have occurred at the 2 intersections within the past 5 years. Here is the breakdown:

Chickasaw/Winter Song

2012 – 1 crash – caused by a wide right turn (possible careless driving)

Chickasaw at Autumn Wood

Feb. of 2011 – Rear-end crash
Aug. of 2011 – Single car crash – distracted driver hit sign pole
Feb. of 2013 – Rear-end crash
Aug. of 2013 – Rear-end crash
July of 2014 – Rear-end crash

I hope this information is helpful.

Mary Ann

Mary Ann,

Thank you so much for looking into this for me. The intersections for which I need the car crash statistics are copied below in my initial email to Cynthia. Again, I greatly appreciate any information that you or anyone from MetroPlan can provide. (If you are aware of another place where I can quickly obtain this information, please let me know.)

Best,

Nancy Conicella

Subject: Intersection Crash Statistics

Hi Cynthia,

I tried reaching you by telephone, but I was not able to get a hold of you. I would like to have the crash statistics for two intersection points within Orlando. These are the two points that I would like that information for:

1. Intersection of N. Chickasaw Trail and Autumn Wood Drive
2. Intersection of N. Chickasaw Trail and Winter Song Drive

Please contact me as soon as you are able. I will be in my office until at least 6:30 this evening, and I can be reached via email at any time. I greatly appreciate your assistance.
