SUBJ: **Construction of Speed Humps on N. John Street**

At the request of the residents on N. John Street, a speed hump survey was mailed to the property owners. This was to determine if the property owners supported the installation of speed humps on N. John Street. If two-thirds of the returned ballots from the property owners were in favor of the speed humps, the County would install the speed humps.

The result of the survey was that 85% of the returned ballots from property owners supported the installation of speed humps. The current plan is to install four speed humps on N. John Street. The project is being funded by Orlo Vista Safe Neighborhoods and Public Works.

**Action Requested: Approval to construct speed humps on N. John Street.
